To whom it may concern,

I am writing to communicate my total disgust in the obvious complete disregard for as he put it the "locals". We as a community have stated our position on Migdale and it is obvious we do not support it in any fashion, as a club, a wedding venue or any other convoluted idea he has tried to float. Confirming this travesty would irreparably damage our community and more than likely bring a onslaught of other "developments" to improve our town.
